

Reducing Barriers to Education and Attendance (RBTE) Support For Parents and Carers 2025-26

Support in Salford is available for children and young people who experience emotional barriers to attendance/ accessing education. We understand that attendance difficulties are stressful for the whole family and, following positive feedback, will be running parent/carers meetings again this year. We have also included information about other types of support for you and your child below.

Parent/Carer drop in meetings

An opportunity to meet other parents/ carers whose children experience barriers to attendance/ education. The sessions are run by members of the Educational Psychology Service and Salford Parent/Carer Forum. It is an opportunity to meet other parents/carers for open discussion where information about support available for children and young people in Salford is shared. The sessions are relaxed and welcoming, there is no expectation to turn on your camera or talk unless you want to.

Parents who have attended tell us : “I have found these sessions really supportive”, “It was useful to meet the professionals and services involved” and they appreciated “feeling a sense of not being alone”.

Key messages and principles

1. Can't, not won't – children do well if they can.
2. Preventing and responding to attendance difficulties needs to be a whole school approach. Early intervention is key.
3. Support first. Build trust and work with families.
4. Prioritise wellbeing and address wider wellbeing needs (belonging, friendships, self identity) – this supports access to learning.
5. Children and young people's views need to be central, and plans needs to be agreed at their pace.
